Criterion VII: Institutional Values and Best Practices

Key Indicator- 7.3.1 Institutional Distinctiveness

The college was established in 2001 under the Maharashtra government's initiative to provide a senior college in taluka areas, aiming to enhance access to higher education in rural communities. As a socially responsible institution, we have empowered local girls through education since 2002, significantly mitigating social issues and integrating them into the mainstream of development.

Our NSS department actively conducts programs that promote values and social responsibility. These activities are organized by students and faculty who share their experiences and insights to instill a sense of civic duty. Volunteers enthusiastically participate in state and central government initiatives, including programs like Corona Warriors, Police Mitra, and Arogyadoot. Whenever the health department requires volunteer assistance for their missions, we readily provide support.

In addition to our social initiatives, the college is committed to addressing environmental issues. Our volunteers engage in tree plantation drives and public awareness campaigns, including voter awareness rallies and voter registration drives organized by the Tahasil office. Various schemes from state and central governments are effectively communicated through our volunteers, collaborating with organizations such as the Health Department, Panchayat Samiti, and local NGOs.

The exemplary work of our NSS volunteers in promoting a clean town has been recognized, particularly through our participation in a plastic-free campaign. Volunteers are encouraged to lead efforts in maintaining cleanliness in public spaces. Throughout these endeavors, the local community has shown remarkable cooperation and support, reinforcing our commitment to holistic student development through diverse activities, with student-centric cells and committees facilitating active participation.

Skill Development Centre

The College has established several courses aimed at enhancing the skills and competencies of regular students alongside their academic education. The Departments of English, Economics, Sports, and Commerce offer certificate courses focused on skill-oriented education. In today's competitive landscape, such skill-based education is essential for instilling confidence in students and preparing them to tackle challenges effectively. These courses inspire enthusiasm and a positive outlook towards their careers.

Career Counselling Cell

The College has entrusted a dedicated faculty member with the responsibility of the Career Counselling Cell, which conducts various activities related to employability and job opportunities. This cell informs students about government schemes and initiatives, facilitating their access to desired opportunities. The Maharashtra government offers numerous schemes that foster a positive attitude among students regarding their career prospects.

Student Development Cell

Recognizing that every student possesses unique potential, we organize social and cultural activities in collaboration with the cultural department. These initiatives provide a platform

for students to showcase their virtues and cultural attributes through various presentations. Additionally, the Student Welfare Department conducts representative elections according to government and university regulations, thereby enhancing students' personal relationships, social skills, and leadership abilities.

Farmer Counselling Cell

The Department of Botany has established a Farmer Counselling Cell aimed at addressing the pressing issue of farmer suicides in Maharashtra. By understanding the challenges faced by local farmers, we provide technical and scientific guidance on crop management. Faculty members and students collaborate to promote organic farming practices, which are increasingly vital in today's agricultural landscape.

Women's Counselling Cell

Many girls often hesitate to share their problems due to societal taboos and restrictions, which can lead to significant challenges. The Women's Counselling Cell addresses various personal and academic issues, empowering them to develop both physically and mentally. Counseling plays a crucial role in providing solutions, allowing female students to meet with our female faculty members for personalized academic and career guidance.

Mentor-Mentee Scheme

Following the admission process each year, enrolled students are paired with faculty members to facilitate regular communication regarding attendance and academic progress. This nurturing relationship fosters a supportive environment, enhancing the teaching and learning experience. Moreover, it strengthens the moral resilience of students, equipping them to face future challenges with confidence.
