Services are the way of such the biggest asset of any service industry. Services are the way of such the biggest asset of any services passengers in all rural area increases its services & facilities to survive. Buldhana division much helpful to providing services passengers in all rural area increases its services & facilities to survive. Buldhana division much helpful to providing services passengers in all rural area. increases its services & facilities to survive. Buildinana division in MSRTC but there want some scientific improvement. The present study focuses on the analysis of passenger satisfaction of MSRTC in Buldhana division.

KEYWORDS

Introduction:-

Road transport has close relation with human life. It is essential for development of public/nation. It assumed importance in industrialization period.

Before independence, there had been continuing road passenger transportation business in unrecognized system. Private businessman ignored security & services of passengers. There was exploitation of passengers. Therefore for country's development government established "Maharashtra State Road Transport Corporation" as per the provision in section 3 of RTC act 1950.

In India the states and city transportation is managed by Respective State Governments. MSRTC is one of them. It provides valuable services & safety to the passengers. But it has been facing various problems of different types. Such as accident, fares, timings etc. by these reason it goes in predica-

MSRTC provide transportation service throughout Maharashtra and neighboring sates with the help of 15500 buses and it conduct 85000 trips a day and near about 1,04,000 employees are working in MSRTC in all over Maharashtra includes 33000 Drivers, 33000 Conductors and others includes Mechanics and administrative staff.

Introduction of Buldhana District:-

Buldhana (also known as buldana) is a city as well as a municipal council in the state of Maharashtra in Western India. Buldhana along with the rest of Berar Province was part of the kingdom of Vidharbha mentioned in the Maharashtra, a Sanskrit epic poem. Berar formed part of the maurya Emprise during the region of Ashoka. There are seven bus depots in Buldhana district. These are Buldhana, Chikhali, Mehkar, Malkapur, Jalgaon Jamod, Khamgaon & Shegaon.

In Buldhana district bus services are beneficial & needed to students, senior citizens, servants etc. And it secures to the public from private transportation services. Such as auto, taxi etc, they do the exploitation of public & not give the proper services. They also create problems towards bus services.

Objectives of the Study:-

1) To know the passengers satisfaction towards services pro-

2) To know the role of MSRTC in development of state.

Hypotheses of the Study:-

Hypothesis has a vital role in research. It gives a direction to

the research following are some working hypothesis kept mind while doing the research.

- 1) It provides employment opportunities for the people in the
- 2) Passengers are satisfied from services of MSRTC.

Research Methodology:-

Primary Data:- The primary data collected with the help of well structured questionnaire to passengers of MSRTC. The primary data collected by personal from passengers selecting the concerned depots.

Secondary Data:- This type of data obtained from the News papers, MSRTC reports, Internet, Bus Depots.

Sampling Method:

The researcher used convenience sampling for data collection. The selected sample size is 500 respondents.

Scope and Limitation of the Study:-

This study is limited only for buldhana district in Maharashtra

Sometimes the employees, managers of MSRTC or Govt. of cials may not give the correct & factual information due to & crecy of the government polices & data. Hence I have selected Buldhana District for study. There is scope for further study in performance & management of MSRTC, etc.

Services of MSRTC: M.S.R.T.C. is providing various services such as passes, tours, yatra (festivity services), parcel, couries & other goods transport, concessions, annual discount care scheme Social accounts the concessions annual discount care scheme Social account care scheme schem scheme, Social commitment & extra round of buses in the period of football riod of festivals, pilgrimage, passengers crowd season, computerized recognitions puterized reservation facility, amount get by M.S.R.T.C. 10 in Juries nerson in the same also juries person in the accident, public fixed deposit scheme also have in MSRTC NATIONAL PROPERTY AND INCOME. have in MSRTC, Mini bus services, ladies employees, Passenger gathering movement gathering movement, journey as you like, accident prohibited solution & travel protections. solution & travel protection, employees training, security can paign help to period paign help to accidental people, public court, air conditioned bus service, cleanliness of the bus service, cleanliness of buses, etc.

The importance of M.S.R.T.C. increases day by day in our life in the form of services. Let in the form of services. Where have services, there people are interested & satisfied 1- 11 interested & satisfied. In the innovation, the form of services also changes day by day of also changes day by day. Buses are available in different types such as Ordinary. such as Ordinary, Parivartan, Asiad, shivneri, sheetal to providing services to even classes. ing services to every classes of public.

Findings of the study:

This paper shown that there are 62% (310) male & 38% (190) female as respondents in this research study. Females are less travelling than males because of our social tradition that is women stay only in home to work for their children's & parents. Society view is women responsibilities are only related with Kitchen, Kids and Knitting. MSRTC make reserve seats for women & also make secure to them. This thing increases the percentage of travelling of women in the MSRTC bus.

There are 88% (9440) respondents are agreed about MSRTC providing valuable services/facilities to the society & 12% (60) respondents are not agreed. Here is less percentage of passenger's dissatisfactions towards services of MSRTC.

There are found 58.20% (291) respondent is agreed about the MSRTC play a very vital role in the development of the district. And 41.80% (209) respondents are not agreed about that. Here important thing is youngsters are less interested to work in MSRTC or it should find out the reasons of this.

This paper found, there are 90% (450) respondents are satisfied about the services of MSRTC & 10% (50) respondents are not satisfied. Means here have the hypothesis is proof that passenger are satisfied from the services of MSRTC. It is positive side of MSRTC to progress itself & satisfied to passengers with completing social obligations without seeing any profit. This is the right way to survive in long period through providing services to passengers.

Suggestions:

MSRTC should develop parameters of services/facilities, extension of the scope of services. MSRTC should adopt scientific management in the operation of major area of human resource management viz., recruitment, selection, training & development programme, performance appraisal & motivation.

The passengers should develop attitudes, approach & action towards the MSRTC. They have to think instead of MSRTC, it providing valuable & more facilities to the society as social obligation without any consideration of return.

MSRTC should increase in the facilities & employment opportunities for women.

Government should provide funding to MSRTC for expand its scope in the all areas of district as well as in the state.
